

## GMO Status

Date: 1.22.2024

Product: FDCA15CQ Creamy Caesar Dressing

The USDA Agricultural Marketing Service recently released the final rule implementing the National Bioengineered Food Disclosure Standard (NBFDS). The final rule requires food manufacturers to disclose information about bioengineered (BE) food and BE food ingredient content. The compliance date for bioengineered content disclosure is Jan 1, 2022.

- ☐ The product is Non-GMO Project verified.
- ☐ The product is not Non-GMO Project verified, but comes from a Non GMO source.
- ☐ The product may have been derived from genetically modified source material but should not contain modified DNA and/or the proteins derived from genetically modified DNA. For verification, product was tested for RT-PCR GMO Screen and results were negative for genetic modified material.
- ☐ The product does not contain genetically modified material and was not derived from a genetically modified source but was produced using processing aids derived from a genetically modified material (e.g. produced using an enzyme derived from a genetically modified organism).
- ☒ This product does contain a bioengineered food ingredient.

A handwritten signature in dark ink, appearing to read 'Marie Percevault'.
